Subtitle E—Rural and Remote Communities

SEC. 941. SHORT TITLE.

This subtitle may be cited as the “Rural and Remote Community Fairness Act”.

SEC. 942. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) a modern infrastructure, including energy-efficient housing, electricity, telecommunications, bulk fuel, waste water and potable water service, is a necessary ingredient of a modern society and development of a prosperous economy;

(2) the Nation’s rural and remote communities face critical social, economic and environmental problems, arising in significant measure from the high cost of infrastructure development in sparsely populated and remote areas, that are not adequately addressed by existing Federal assistance programs;

(3) in the past, Federal assistance has been instrumental in establishing electric and other utility service in many developing regions of the Nation, and that Federal assistance continues to be appropriate to ensure that electric and other utility systems in rural areas conform with modern standards of safety, reliability, efficiency and environmental protection; and

(4) the future welfare of the Nation and the well-being of its citizens depend on the establishment and maintenance of viable rural and remote communities as social, economic and political entities.

(b) PURPOSE.—The purpose of this subtitle is the development and maintenance of viable rural and remote communities through the provision of efficient housing, and reasonably priced and environmentally sound energy, water, waste water, and bulk fuel, telecommunications and utility services to those communities that do not have those services or who currently bear costs of those services that are significantly above the national average.
